THE UNIVERSAL VERDICT
THE
WHEELER AND WILSON SEWING MACHINE,
THE CHAMPION.

THESE Machines are adapted to all varieties
of Sewing from the lightest thread to the heaviest
of lavers. They work equally well upon Cotton
and Woolen fabrics, and are equally adapted to
Cotton, the Silk, Satin, Cord and Inventive goods
happily adapted to all forms of Sewing, and
work with the **SEW SILENT FEED** on most
Cotton and Silk Goods, and equal to the **Speed**
for Woolen & Wool & Knitting. Excellent results
are obtained. It does not waste any of the labor
lost in gathering and in handling. Sewing is
the fastest, and it is done with greater rapidity
and ease of execution than by any other
machine. It has received the highest commendation
of all the **WORLD'S MACHINES**, on both sides
of the Atlantic.

AMERICAN LIVERY COFFEE CO.
Burton Ship New York
May 1st, 1891.

It is hereby notified that the January Supplement will contain the introduction to the "Key-note Register." In order to obtain a copy of this Key-note, on extra mailing will be printed and furnished gratuitously to all parties in possession of a book called "Key-note" or a book called the "American Shipper's Directory."

REGISTER & KEY-NOTE.

The American Key-note Register, being the acknowledged standard of American surveys of shipping, is received by merchants generally and is recognized by foreign governments as a standard for the collection of dues to every nation, also by the California Board of Underwriters and the West India Ship and Agents, &c., &c. It is important to owners to have their vessels surveyed and entered in this Register. Having complete surveys throughout the State of Maine, I am prepared to accept or make surveys generally of those vessels and to enter the same in the Register as required by the Board. All vessels can be surveyed with the same accuracy and care as those surveyed by sending their orders to me at the Portland Insurance Company, Bangor.
